WORK EXPERIENCE

Marin Academy 2017 – Present

Working with the MA technology department to provide a streamlined service for daily bulletins along with more interactivity for visitors and prospective students on campus.

HuddleMC 2014 – 2016

Over 150,000 lines of code written for my Minecraft server I ran with a friend from Phoenix. I learned system management and monitoring of dedicated servers to ensure seamless uptime. It regularly saw over 1k players weekly and we reached an audience of thousands of people through YouTube.

Freelance Software

Development 2012 – 2016

Experience working with clients and developing personalized "plugins" for Minecraft servers.
